

# Cast Foam

Available in various formulations and densities, MAP's cast foams offer a lightweight alternative to fibrous materials.

## TYPICAL USES

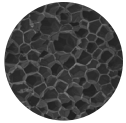

- Engine cover insulator (beauty cover)
- Localized engine compartment noise
- Entertainment/seating
- Medical
- Road noise and cabin acoustics
- Small engines

## FEATURES

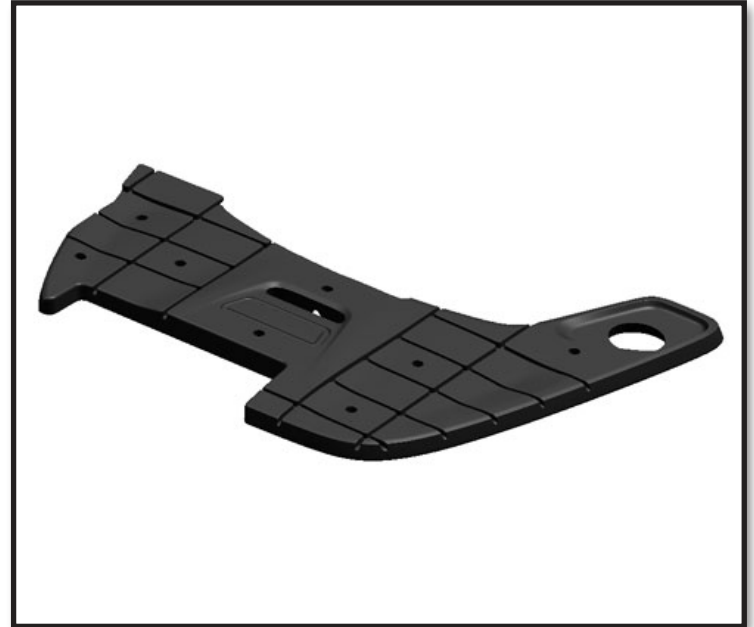

- Lightweight
- High-end acoustical performance
- Durable
- Flexible
- Allows repeatable end-use installation
- Custom contour shapes

## AVAILABILITY

### Molding Medias

Cast Foam

## PROPERTIES

Max. Service Temperature	150°C
Thickness Range	6 - 300 mm
Density Range	40 - 800 kg/m <sup>3</sup>
